Dreamy Spanish Grapes Project

ALLBLACK is a project of Envero Wine Company that was born with the knowledge acquired from years making wine, tasting and selecting the best grapes, working side by side with the best wineries, until we find what fascinate us and leave us completely ecstatic: a great wine

This project begins after discovering some exceptional Bobal vineyards very close to the town of Utiel (Valencia), which have allowed us to produce ALLBLACK - Bobal. A long and intense wine, full of nuances and with a long life ahead.

This is the first wine in the ALLBLACK range, within the unique series of wines dedicated to the great red and autochthonous grapes varieties of our country, the "Dreamy Spanish Grapes" project, and that little by little will be increased with new great red wines.
